In what way has the parent shown support for the student and the educational process?

Has the student ever exhibited any type of behavior that would be detrimental to the class as a whole? (If yes, please explain)

We are particularly interested in evidence about character, relative maturity, independence, his/her values, the things about which the student is enthusiastic, and any special talents he/she may possess. We would like to know both strong and weak points. If more space is needed, please use back of this form.

Overall, do you recommend this student for the STEM program at St. Thomas Aquinas Regional School? Why or why not?
